This one of a kind and largest beachfront property in Punta del Este on 87 hectares land is an oasis and something very special and offers complete privacy. A unique estate along the main Interbalnearia road from Montevideo to Punta del Este not far from the Punta del Este airport. The main house was built to have ocean view with stunning sunrise and sunsets to watch while the other side provides a more serene atmosphere facing the pine forest and a landscaped amphitheater, which can be used for concerts and receptions. Created by renowned architect Pachi Firpo, the main house features a large open living area, separate kitchen with storage room and on the other side the master suite with 2 bathrooms. To the east there is a guest house wing with 4 guest suites and to the west another 2 guest suites, gym, saunas, massage rooms equipped with bathroom and changing room. The property has 450 meters beach frontage on the sea. The pool and large sun deck with BBQ area are between the houses and the beach to give privacy but this part of the beach doesn't get many people even during the high summer season. There are also 4 horse stables and a tennis court which are separated from the main house by the pine forest and a separate Caretaker house with laundry facility and garage. A true must see for someone looking for a special unique beachfront property. Contact us for a visit.
